His Excellency Amir-ul-Mominin conducted a meeting with the central and provincial directors from the General Directorate of Intelligence

The leader of the Islamic Emirate, His Excellency Amir-ul-Mominin, held a meeting with some of the officials of the General Directorate of Intelligence and the directors of the intelligence departments of the thirty-four provinces of the country. The Chief Justice of the Islamic Emirate Sheikh Ul-Hadith Mawlawi Abdul Hakeem, the head of the National Affairs Department Shaikh Mawlawi Noorul Haq Anwar, the operative deputy of the General Directorate of Intelligence Mullah Tajmir Jawad, and the intelligence chiefs of all the provinces of the country participated in the meeting.

The meeting started with the recitation of some verses from the Holy Quran. Later, the intelligence officials shared suggestions, advice, and information related to their duties and activities with His Excellency Amir-ul-Mominin.

After that, His Excellency Amir-ul-Mominin, may Allah protect him, greeted the officials and made a comprehensive speech. He prayed for the martyrs, wounded, disabled, captives, Mujahideen, and supporters of Jihad for tolerating hardships and rendering services.

His Excellency Amir-ul-Mominin, may Allah protect him, mentioned the all-around sacrifices of the Afghan Mujahideen people during the Jihad. He said that all sections of society made unprecedented sacrifices. The scholars made declarations to fight against the infidels and motivated people to Jihad. The elders, youths, and women all sacrificed as much as they could for Jihad.

His Excellency Amir-ul-Mominin advised all not to forget the sacrifices and hardships of the people. It was the people's support and sacrifices that enabled us to win against the great Western enemy, and the people cooperated with us so much that they even sacrificed themselves, their children, and their property for us. Now the time has come for us to serve them and extend the hand of compassion to them.

He added in his speech that the people are our backbone and right hand. They need protection, and the protection of all their rights, virtues, religion, and materials is our duty. We will protect all their rights, and we will monitor their rights in the courts so that the right reaches the rightful, help the oppressed, and rid the oppressor.

His Excellency Amir-ul-Mominin, may Allah protect him, said about the orphans of the martyrs that the sponsorship of these orphans and compassion for them keeps the Jihadi spirit alive. It is our duty to be kind to the children of the martyrs because it was through the sacrifices of their fathers that we gained victory. We are responsible for educating and paying attention to the future of every orphaned child.

We bear such a responsibility that we will be asked about every citizen of the nation. The beggars, mentally ill, and drug addicts of this nation have the right to be collected and treated. Today, if someone dies in a desert or on the side of a road due to using drugs, we will be held accountable. Also, we will be questioned about the sinners, and why we do not prevent them from sinning. Free the people from the oppression of the oppressors, stop immorality, and close the prostitution centers.

Pay special attention to the application of Sharia. All officials will give me an answer as to how much they have implemented Sharia in our one-year government. Fully implement my six-article decree on women's rights.

Intelligence is an organ that is related to leadership; they take instructions from this place, strengthen the foundations of the system, and destroy the plans of the enemies. They shall discover evil plans by our enemies and destroy them.

I instruct you not to imprison people on suspicion, but to arrest them in the case of reliable reasons and evidence and present them to the court for a decision. Enforce and implement all the principles and laws of the Islamic system.
